Professional Summary

Computer Engineer with more than 10 years of professional experience in software development, systems integration, SQL Server databases, ERP, and IT infrastructure. Experienced in developing business and manufacturing applications, integrating databases and industrial systems, and leading IT operations. Currently updating and strengthening my technical skills in Python and Artificial Intelligence to return to the software development market, combining my previous professional experience with current technologies.

Core Skills

Software Development
C#, VB.NET, ASP.NET
SQL Server & SQL Development

Professional Development

Inteligencia Artificial Aplicada con Llama | 2026 | In progress

Google Data Analytics Professional Certificate — Google | 2025

Fundamentos de Inteligencia Artificial | 2025

Python Programming | 2024

Current training focused on practical applications of artificial intelligence and large language models.

Professional training in data analysis, SQL, R, Tableau, spreadsheets, and data visualization.

Training in fundamental concepts and techniques of Artificial Intelligence.

Training focused on Python programming and strengthening software development skills.

Professional Experience

IT Supervisor | Hutchinson Seal de Mexico | 2011–2016

- Led the IT department supporting manufacturing operations.
- Implemented a Help Desk system to improve incident response and resolution times.
- Planned and developed shop floor systems integrated with ERP XA.
- Implemented Disaster Recovery solutions using Veeam, Backup Exec, and iCluster.
- Migrated SQL Server databases from 2005 to 2014.
- Developed interfaces between DB2 and SQL Server databases.

Programmer Analyst | Hutchinson Seal de Mexico | 2005–2011

- Developed manufacturing applications using VB6, VB.NET, C#, ASP.NET, and SQL Server.
- Created Crystal Reports and production reporting solutions.
- Integrated software with PLCs and industrial equipment.

Design Engineer | Lowrance Mexico | 2003–2005

- Developed embedded software in C and C++ for GPS devices.
- Designed communication interfaces using NMEA 2000, RS232, and RS422.

Education

Bachelor's Degree in Computer Engineering
Universidad Autónoma de Baja California (UABC)
1998–2002

Technical Skills

C#, ASP.NET, VB.NET, Python, Java, SQL, HTML, XML, DB2, Windows Server, IIS, Exchange Server, Microsoft Project, Visio, Office.
